

Wire & Metal Products

Thank you for your inquiry into our custom products. ABCO Wire custom designs and manufactures display products, baskets and component parts to fit our customers' needs. We can incorporate wire, sheet metal, tubing and wood into our products. We do not stock items, subsequently we do not have a catalog of stock displays. We do provide examples of products we have made for other customers. We can make the same product for you or create a new design to meet your specific requirements.

If you are interested in a custom display or products we have made for other customers, please contact us. We would be happy to send sample drawings, pictures and specifications to you.

An information brochure is attached or visit our website at <http://www.abcowire.com>

**WIRE ~ METAL ~ SHEET METAL ~ TUBING ~ WOOD
FABRICATION ~ BENDING ~ FORMING ~ PUNCHING ~ CNC**

Russell, KS

Since 1945, we've built our business on two priorities, top-quality products and customer service.

Through the years ABCO Wire has built numerous displays, ranging from hosiery displays, spice displays, magazine checkout fixtures, various counter and floor displays, baskets and a myriad of component parts.

We can incorporate wire, sheet metal, tubing, plastic and wood into our displays. Do you have a specific design in mind or just want something different?

Packaging and shipping to fit your needs. We can bulk pack to your warehouse location or pack the product along with other components, such as, signs and labels for drop shipment to your customers' location.

ABCO's in-house powder paint department will put the final touches on your displays. We carry a variety of powder paint stock colors. Our powder paint system enables us to apply an epoxy vinyl coating, if you are looking for a plastic finish to your display.
